# New Health Measures Outlined In British House of Commons

By JAMES MCCOOK  
LONDON, March 21.—(CP)—The Minister of Health, Mr. Aneurin Bevan today revealed in a government white paper the details of a national control:

## Veteran Selects Unique Profession

# Seeks Hangman Training

A hangman—this was one of the trades recently applied for by an army veteran in the department of veterans' affairs current "training-on-the-job" campaign.

The EX-SERVICEMAN, a veteran of the Sicilian, Italian and Northwest Europe campaigns, walked nonchalantly into the training office in the Redwood building and inquired if it was possible to receive training as a hangman, stating that if it was, then he wished to enrol for such a course.

W. W. Frecker, training administrator, DVA, said "the man sure took me by surprise, and at present we are racking our brains trying to find out if it is possible for him to receive this training anywhere in the province."

"WE HAVE TWO OR THREE training as undertakers at present, but this case presents an entirely new problem," added the district administrator.

The ex-soldier then went into the office of W. T. Croom, supervisor of rehabilitation, DVA, and had a long talk with him.

Officials are possibly trying to figure out if the man will be successfully occupied and will receive sufficient work.

## Gouzenko to Tell Story

# Starting Turn In Spy Case

## Likely When Clerk Testifies

MONTREAL, March 21.—(CP)—Igor Gouzenko, Russian embassy clerk who defected from Ottawa, will testify in public for the first time Friday when Fred Rose and Dr. Raymond Boyer appear in court here for preliminary hearing of charges arising from the investigation.

An RCMP official predicted Gouzenko's story will be the most important evidence in the case since the espionage case was brought into the open.

## 3. Make illegal sales of medical

center from which doctors work; 4. Grant free specialties, drugs and ambulances to the 400,000 people of Eastern Canada.

Regarded as one of the most revolutionary and comprehensive measures of social legislation ever laid before any British parliament, the bill was presented for first reading in the House of Commons Tuesday. It came up for the all important second reading today and strong opposition to its passage is expected from the Conservative party.

THE ADDITIONAL COST to the exchequer will be £295,000,000 (£22,500,000 annually) and if it is passed.

## Answers Questions

# President Explains AFU Labor Stand

While the Alberta Farmers' Union supported labor requests in regard to the AFU, the AFU has been to the agricultural committee of the Legislature last week, the organization did not consent to being required to answer questions, particularly about the AFU's labor.

Carl Stimpfle, AFU president, testified Thursday when he again appeared before the committee, this time in answer to subpoena.

NEWSPAPER STORIES which had stated that Mr. Stimpfle had agreed that the AFU was willing to pay a 40-hour week for skilled farm labor had induced him to appear before the committee, Mr. Stimpfle explained that he had said the AFU was willing to pay higher wages "if" parties were for the farmers were obligated.

When the committee of evidence was taken up.

## Believe Trapper Victim in Fire

A charré human body found in the ashes of a vacant house near Thorold last Monday may be that of a trapper, RCMP officials believe.

Merlin Melnychuk, RCMP official, said the body was found in the ashes of a vacant house near Thorold last Monday.

Melnychuk, who has been engaged in trapping in the district for some time, said he had been in the house since Saturday, March 15, and was carrying a 22 Cooley rifle and a .38 Smith & Wesson revolver.

When the body was found in the ruins of the house by Nick Hammond, whose farm adjoins the house, the body was found in the ruins of the house.

RCMP said that no definite identification of the body had yet been made.

# Prosecute Russ Move to Delay UNO Security Council Meet

WASHINGTON, March 21.—(AP)—President Truman today said that Monday's scheduled meeting of the United Nations Security Council will not be postponed.

MR. TRUMAN said his press conference that the United States delegation will press for action on the Russian case.

Russia has asked for a 14-day delay on the ground she needs time to prepare her answer.

Mr. Truman again announced that he was not seeking another meeting of the "Big Three" to deal with differences among Russia and other members of the United Nations.

THE UNITED NATIONS organization.

That an agreement signed by labor unions was no guarantee of industrial peace, as had been contended by labor organizations presenting briefs to the Legislature's committee Thursday by Clem Stubbis, secretary of the Canadian Bituminous Coal Operators' Association. Mine workers have been unionized for many years, he pointed out, but this has not prevented the strike in the mines and the work has always been done under a peace agreement.

IN SPITE OF WAGE increases between 1941 and 1944, and in spite of the fact that the production of coal has increased, the production of coal per man per day has dropped by five per cent, Mr. Stubbis said.

Although it was true that there had been no strike in the mines since 1944, he pointed out, the fact was that the production of coal has increased, the production of coal per man per day has dropped by five per cent, Mr. Stubbis said.

## Soviet Hybrid Wheat Studies

MOSCOW, March 21.—(Reuters)—Experiments during the last 31 years in Russia in hybridizing wheat with hardy wild plants to obtain high yields capable of withstanding drought, frost and disease, have produced a measure of success, leading scientists to believe that the hybrid wheat will be a valuable crop.

They claim new varieties of both spring and winter wheat have been developed, possessing complex properties of high grain yield, resistance to drought, frost and disease, and particularly perennial wheat.

A decade ago, the scientists began hybridizing wheat with such grass produced perennial wheat, which was able to grow in four crops but it was unable to produce large-scale cultivation. The new varieties, they say, are recommended for sowing in any agricultural zone.

## Chinese Political Situation "Serious"

CHUNGKING, March 21.—(AP)—Chinese spokesmen said today that the political situation in China is "serious" and that the government is taking steps to deal with the situation.

## Announce Play-Off Dates

REGINA, March 21.—(CP)—Edmonton Canadians, who moved into the Western Canada hockey final by downing Moose Jaw Canucks four games to one, will open the final on home ice either Wednesday or Thursday, according to the Canadian Amateur Hockey Association, announced today.

Should Monarchs win, the best-of-seven round opens in Edmonton March 25, with a second game March 27, and a possible third game in Regina March 29. The teams that lose in the first round will swing to Winnipeg for games March 30 and April 1, and April 3, depending on how many are played at Edmonton and Regina.

Should Port Arthur win, at least two games will be played at Edmonton, and the balance arranged later.

Pickard said Calgary and Winnipeg would open the best-of-five Western Canada series at Saskatoon Saturday, and swing into Calgary next Tuesday and Thursday. If necessary, will be March 30 in Calgary, and the fifth, if necessary, in Edmonton.

## Hermann Goering Testifies:

# Crimea, Three Baltic States Coveted by Hitler for Reich

NUERNBERG, March 21.—(BUP)—Reichsmarschall Hermann Goering told the War Crimes Tribunal today that Adolf Hitler coveted the Crimea and the three Baltic states, British prosecutor, Sir David Maxwell Fyfe, said today.

Under questioning by Gen. Roman A. Rudenko, chief Russian prosecutor, Goering said:

"I DID NOT WANT a share of the booty after the war, but the bear skin before the war."

"That did not happen, luckily," Goering said.

Goering said he always considered "Russia's drag chain" was the "three Baltic countries taken by Russia—Latvia, Lithuania and Estonia—before the war."

EARLIER, GOERING was accused by Sir David Maxwell Fyfe, British prosecutor, of being a witness stand when he said he did not want a share of the booty after the war, but the bear skin before the war.

(Continued on Page Two) See GOERING

## 1946-1947 Budget Is Passed by Assembly

Estimates were completed and the annual Appropriations Act was given first reading in the Legislature Wednesday afternoon.

The bill was introduced by Mr. Majestic's service the \$2,508,325 estimated by the government to be the sum of the government's needs of the government until the end of the next fiscal year, March 31, 1947.

APPROPRIATIONS to cover expenditures made for the year ending March 31, 1946, which came under the heading of supplementary estimates for 1945-46, were also approved. This amount includes seasonal indemnities and travelling expenses for the three members of the armed forces for that year. Similar arrangements were made to cover expenditure made by warrant in the year ending March 31, 1946, for the sum of \$25,077.80, which was a note at the bottom of the supplementary estimates for 1945-46, were passed before February 13, 1946.

THE BUDGET was brought before the house on the evening of Wednesday, March 21, and after Mr. Manning who then predicted a deficit of \$108,132, which he pointed out would be made up from accumulated surpluses, so that no money would be borrowed to meet this amount.

One is for grading the road from Wainwright to Hinton, and the other is for the road from Hinton to Grande Prairie.

The 75-mile road from Coats to Grande Prairie is a gravel road, which was awarded to Western Engineers of Calgary for \$60,000.

# Senator Praises Spy Hunt Action

OTTAWA, March 21.—(CP)—Action of the government in the espionage investigation won praise yesterday from Senator John H. Halp, Progressive Conservative senator leader, who made reference to the case in a throne speech address generally critical of government policies.

SENATOR HALP, a Winnipeg lawyer, said he did not like the idea of people being held without counsel, but added, "spying in Canada is to me an unforgivable thing."

"By and large I think the government has done a pretty good job," he said.

Senator Waskar Robertson, government senate leader, who spoke briefly after Senator Halp, said the active opposition of the Canadian people to any suggestion of interference with the liberty of individuals was something to be welcomed. He did not believe that there had been jeopardizing of the state that was the intention of the government to introduce considerable legislation in the senate instead of the commons at the present session.

SENATOR HALP dealt with a variety of subjects. He suggested a permanent federal labor code and said removal of controls and reduction of taxation were essential. Building to end the housing shortage would not come until rent controls were removed. Taxes at wartime rates were a detriment to enterprise.

On foreign policy he urged Canada to put her relationship with the British Commonwealth on a new basis, and to make her friendship with the United States more real, and to make it a part of the United Nations organization.

# Spring Arrives

(Continued from Page 1)

farmers report seeing geese and ducks winging northward in their earliest flights for the season.

IN NEW BRUNSWICK a venturesome butterfly was sighted yesterday and the early thaw caused creeks to overflow, flooding homes on low ground in the Moncton district.

Montrealers saw a profusion of pre-scheduled wild life with butterflies, red-winged blackbirds, and other birds making their early appearance. The St. Lawrence ice-breaker was hard at work opening the last section of the river channel below the city.

IN ONTARIO IT WAS much the same story but fruit farmers anxiously hoped that temperatures would not go high as they would on fruit blossoms ahead of time. Last year they came out prematurely and, later, frost weather caused severe damage to Niagara peninsula crops.

Even in the mountainous interior of British Columbia the weather has been warmer than usual with the temperature in the 50s during daylight hours. Monday Vancouver and Victoria entered a 48-hour stretch of clear sunny weather but in the northern coast sections it has been raining daily for almost a week.

GOLF IS an all-weather sport at the coast but so far only the hardy members of the Polar Bear club have tried swimming as yet in Vancouver or Victoria.

Far to the north, the members of operation Muukox would see the sun showing more above the horizon as the extreme Arctic's six-month day begins. When the sun is below the celestial equator continuous twilight, then darkness, prevails for the other six months.

The outlook throughout the Dominion was for continued mild weather with no sign of a return to winter conditions. March it appeared, would go out "like a lamb."

TEMPERATURES have been as much as ten degrees above normal east of the Rocky Mountains to Quebec this month, and precipitation has been lighter than usual.

Manitoba, except for its northern reaches, welcomed an official spring day that brought bright sunshine. The temperature was 38 at Winnipeg, currently in the throes of feverish junior hockey playoffs.

The Ontario temperature today ranged from 40 to 60 degrees. The fair weather held on the prairies too. For instance, seeding of wheat has started in Southern Alberta. The temperature around Lethbridge and Edmonton early today was 33 under a bright sun. Some Albertans planted flowers and vegetables.

# Chinese Demand Soviet Troop Withdrawal

Four thousand students carrying posters written in Chinese, Russian and English paraded through the streets of Shanghai in protest against the slow withdrawal of Russian troops from Manchuria. All placards carried the message: "Soviet troops should be withdrawn from Manchuria," and "looted material should be returned."

# London-Vancouver Air Derby Planned

VANCOUVER, March 21.—(CP)—A special sub-committee of the Civic Diamond Jubilee Organization was authorized yesterday to go ahead with arrangements for a London (England)-to-Vancouver air race during the July 1-4 jubilee celebrations.

Harry Duker, acting chairman of the executive committee, said standard air line passenger planes would be the contestants.

RUSSELL UNDERHILL, committee secretary, said a prize of about \$25,000 would be given, adding the venture probably would be self-supporting because contributions from companies and manufacturers of air-ports are available.

Committee officials said the race would begin in London with stops being made at Newfoundland, Montreal, Toronto and Winnipeg en route.

The special air race sub-committee is under the honorary chairmanship of Senator G. G. McGeer.

# Iran Call-Up

(Continued from Page 1)

as a leading opponent of Premier Ahmad Qavam was taken into custody yesterday by two men in the uniform of Iranian army colonels.

ZIA ED-DIN TOLD newspapermen: "I think they are arresting me because I am not on their side." He said in an interview Tuesday that "Iran's only hope lies with the world."

Prince Firouz, director of propaganda and political undersecretary of state, said the deputy was "put under preventive detention pending investigation of certain charges" on orders of Premier Ahmad Qavam.

An Iranian general staff officer said heavy arrests prevented reinforcement of the three garrisons besieged by Kurds in the northwest, but, he added, seven Iranian planes were trying to keep the garrisons from being cut off from divisional headquarters.

HE SAID 3,000 tribesmen engaged in the attacks against the garrisons at Sardasht, Baneh and Saqqiz, while "loyal" Kurds had engaged "democrats" of self-proclaimed autonomous Azerbaijan province, which is occupied by Russian troops.

The officer said "strangers" speak a Turkish dialect similar to that heard in northern Azerbaijan but has observed among the tribesmen attacking the Iranian garrisons.

By EDDY GILMORE  
MOSCOW, March 21.—(AP)—The Soviet government newspaper Izvestia declared today that "it is perfectly obvious that continuance of the policy of reactionary circles in Iran may lead only to further sharpening of the situation in the country."

"AMONG IRANIAN political leaders there are not a few who acknowledge the necessity for change in foreign and internal policy," Izvestia added. "These changes have really ripened and are directed by the interests of the Iranian people."

Izvestia's observation was made at the end of a long article reviewing the situation in Iran beginning with August, 1941, when Soviet troops moved into the northern part of the country.

# Says UNO Not Way Attain World Peace

WASHINGTON, March 21.—(AP)—Senator Charles McNary declared yesterday that "the United Nations Organization is not the way out of this web of fear—that the Big Three must re-establish unity outside it through an unprecedented conference of their generals, workers, businessmen and statesmen."

THE FLORIDA DEMOCRAT sharply assailed Senator Arthur Vandenberg (Rep.-Mich.) as leader of the "newest form of isolationism"—exclusive American possession of the atomic bomb and military control of atomic energy.

Senator McNary asserted that before entering the United States, the United States, with Britain and Canada, "should destroy every atomic bomb we have and smash every facility we possess" for making it, equal access by the countries to the atomic bomb should be made with all matters which would wipe out distrust among the United States, Russia and Britain and assure their security.

1. That all knowledge of atomic energy be freely poured into the international channels of science.

2. That Russia have "fair access" to the oil of the middle east and other "territories outside her own homeland," as do the other big powers.

3. That all "strategic bases and areas of the world" be under joint occupation through the security council.

4. That the United States grant the loans which she said other countries need for "useful purposes," including the \$600,000,000 credit she said Russia has requested.

# Calgary Bull Sale Sets New Records

CALGARY, March 21.—(CP)—History was made at the Calgary bull sale yesterday when a promising Shorthorn breeder brought his grand champion Hereford bull and was willing to pay \$4,000 for him.

For W. S. Herron, prominent Calgary oil man, it marked the final break with the Shorthorn breed.

THE RESERVE CHAMPION, another Crawford-Ford entry, sold for \$1,000 to Fred Deverard of Kimmeling, Colnabo, The Stamp Lake Ranch of Kamloops, B.C. bought the third in the Crawford-Ford string of five for \$2,500.

Average price for the 237 head of Herefords sold on Wednesday was \$315.20, and the average for the two days was \$480.

# Nylon Stockings Rain on New York

NEW YORK, March 21.—(AP)—Stockings-shaped pieces of tissue paper—some redeemable for nylon—fell from an airplane into Times Square yesterday, creating all kinds of excitement and causing the man behind the stunt to get two police summonses.

It was Pat Henning's way of celebrating his 26th birthday. Henning, a vaudeville comic, dropped the pink, blue, brown and purple paper shaped like hosiery and 60 of the scrambling crowd later redeemed them for the real thing at the Paramount theatre stage door.

Asked how he would plead in court Friday in answer to the summonses charging violation of sanitary code and park laws, he said, "I felt it was better to give than to receive. But on second thought, maybe it wasn't."

# \$65,000 Damage In Quebec Fire

GRANBY, Que., March 21.—(CP)—Damage estimated at \$65,000 was caused last night when a fire swept through a two-story building on Dufferin street, housing a bowling alley, a garage and the provincial government's organized arts and trade school.

In normal times, British farmers are able to produce 40 per cent of the food needed for the nation.

# Dependents of Those Killed in Last War Urges Better Care For Heroes' Families

VANCOUVER, March 21.—(CP)—Alex Walker, Dominion president of the Canadian Legion, said yesterday that families of those who died or were killed in the last Great War are wards of the country "and we have a moral obligation to see that every reasonable claim be taken of their interests."

ADDRESSING the annual convention of the British Columbia Legion, he said the federal government by means of the dependents' board of trustees helped many veterans' family through periods of financial need, but this principle has not received adequate recognition in the provisions made for the dependents of men killed in the recent war.

"True, pensions and children's allowances are provided and in the case of the young children, we have no serious quarrel with the provisions made. But, where there are children more should certainly be done."

If the father had lived, certain valuable rights and opportunities would have come to him as a result of his war service," said Mr. Walker.

"PRESUMABLY, the utilization of these rights would have enabled him to achieve a place in society where he would not have had a reasonable chance of providing for the needs of his children."

But he was called upon to sacrifice his life... Not only did the family suffer the loss of a father... but they lost their own normal opportunities in life.

The Canadian Legion... has advanced the proposal that the benefits that would have accrued to the veteran, had he lived, should be made available to his children."

THE DOMINION PRESIDENT also spoke of veterans' problems and said war veterans, "over 1,000,000 strong" are "getting pretty impatient and disgusted" with the housing shortage.

"There has been far too much talk and not enough action," Mr. Walker said. "Thousands of veterans sunk their gratuities into houses that they cannot complete for lack of materials and called for government subsidies under which veterans could pay for homes at \$25 a month 'which is what most of the boys can afford.'"

HE SAID FURTHER that the Dominion government had failed to meet the needs of universities and vocational training schools in dispersal of surplus war equipment.

"There are millions of dollars worth of tools and instruments that Canada bought for war. Much has not yet been declared surplus—engineering tools, surgical instruments, laboratory equipment and many more vital articles necessary for educational purposes."

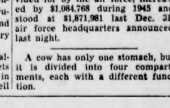

Mr. Walker also has passed already as surplus to War Assets Corporation and have been sold in some cases to dealers who resell

# Benevolent Fund Jumps by Million

OTTAWA, March 21.—(CP)—The RCAF Benevolent Fund, established for assistance to personnel in emergencies not otherwise provided for by the air force, increased by \$1,084,108 during 1945 and stood at \$1,871,981 last Dec. 31, air force headquarters announced last night.

A cow has only one stomach, but it is divided into four compartments, each with a different function.

# Whenever You're Thirsty!

"Boy - am I glad I saw my Bank Manager!"

"Betty and I were worried... we were urged to invest our savings, including my service gratuities, in what we thought might be a good business proposition. My bank manager showed me why it wasn't so good... maybe saved us from losing all we have!"

If you are an ex-serviceman, getting re-established in civilian life you will find your local Bank Manager a useful man to consult.

He is familiar with local business conditions and opportunities; he is glad to give helpful information to any veteran who comes in to see him.

He knows the hopes and fears, joys and worries of small business men, wage earners and salaried workers, because he has been talking to them over many years - considering their problems, lending them money, rendering them service in many ways. He'll be glad to do the same for you.

Why not talk to him at the first opportunity? Veterans all over Canada are saying: "Boy - am I glad I saw my Bank Manager!"

## Housing for Veterans

A few days ago, Veterans Affairs Minister James Maclean announced that arrangements had been made with Canadian universities to give ex-service men and women priority admission to these institutions.

This is as it should be. It is a wise step which will be appreciated by men and women who very properly wish to fit themselves for professional and skilled employment.

Unfortunately, the beneficent move is almost completely nullified by the lack of housing in most university centres, including the University of Alberta.

It is not surprising that the universities take classes for any length of time find themselves confronted with impossible living conditions.

Last year in various parts of Canada many veterans who had registered for courses in plenty of time found themselves unable to attend because of the lack of places to live, either alone or with their families.

Thus is revealed another striking instance of how all the best-laid and best-conceived plans of government come up at last against primary national evil—the shortage of modern low-cost homes.

Canada's urgent need for tens of thousands of modern houses that will rent or can be purchased at between \$18 and \$25 a month is a fundamental fact in the development of the country. All social legislation comes back to it. Even the production of the country can be seriously decreased by the diversion of resources from the household budget into disproportionate rentals.

Government planning depends, in the final instance, upon the ability of the people to find homes they can afford.

The subsidization of modern low-rental homes has therefore become a most pressing business of government.

## Going Too Far

The Saskatchewan legislature passed a resolution asking that income tax exemptions be raised to \$1200 for a single person and \$2000 for a married person.

The only thing wrong with this resolution is that it sets figures higher than are ever recognized as fair. There is quite general agreement that no person should have to pay on an income less than \$1000 and no married person on an income less than \$2000.

It is practically unworkable. But a good cause is not helped by asking for too much. That is the building up and puts arguments into the hands of opponents. There is at least a fair chance that the pressure of public opinion exemptions up to the \$1000-\$2000 level, but to start going beyond that and make larger demands create an impression that the advocates of increased exemptions are unreasonable people who want to shrink a fair share of the taxpaying burden.

Evergetically harried by opponents of any increase at all, the members of the Saskatchewan legislature have done more harm than good.

## It's Up To Customers

Meat packers in Chicago say the black market operators are making it impossible for them to supply their customers. In other areas, they say, the flow of beef in legitimate channels has dropped to 30 per cent, in other to a "mere" 10 per cent.

This is another way of saying that people who obey the law cannot get beef because people who are willing to pay more than the legal ceiling prices are getting more than their share. Obviously one of three things must happen. Law respecting citizens will have to go on down to the lowest level, prices will have to be raised, or the black market operations will have to be stopped.

For whatever reason, black marketing has been attained in Canada by assembling the proportions to which it has spread in the United States. But the moral of the situation there is plain, and may be noted with profit by people in the United States. What has happened there could happen here, in relation to most or other commodities.

It is not, in Chicago or in Canada, a case of the police versus the black market operators. The battle is between customers who keep the law and customers who break it. Black marketing does not take place until the dealer is willing to violate the law. It starts and flourishes because there are people who are willing to pay more than the legal ceiling prices to get more than their share of the goods.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

Customers who are willing to pay more than the legal ceiling prices to get more than their share of the goods are the ones who are making the black market operators profitable.

of its demands, and is promoting insurrectionary movements if not aiming to overthrow the government and set up a puppet regime. In which case, lodging the protest may have been the best official act of the present cabinet at Tehran.

The Council seems to be plainly bound by the Charter to take this complaint into consideration. The Charter is left to it no option. And in any case the Council could not turn a deaf ear without destroying its own prestige and causing other aggrieved nations to seek other means of redress. The Council is supposed to be at least a fact-finding body.

That the Council can do anything more than hear the dispute is something else. It can only make a decision if seven of the eleven members vote one way. And this must include the five permanent members—of which Russia is one. This is where the "veto power" comes in. Russia can, if it wants to, prevent the Council taking any action.

It will be recalled that at London Mr. Vishinsky threatened to use this veto power if the Council sought to deal with the Iran situation, and declared that this left no negotiation between the two countries. The Council complied. It could do nothing else.

At least—and perhaps in total—the protest from Tehran will result in a factual examination of the situation. That will be altogether the best possible move. It has been combined to the Iran into an area of fog. It is time to sweep away the obscurity and let the world know what exactly is and has been going on there.

In Toronto 12 persons have been killed since New Year's in traffic accidents, and 562 injured. The police blame pedestrians for acting like "sheep" when they flock out into the streets to climb on the cars. What they mean is not quite clear. It is the fact that the folks on foot show sheep-like trust that the police will enforce the traffic laws.

Within two weeks three airplanes have crashed in the California mountains. Known as the "California Airlines," they are going to 62. Hopping over the mountains which separates the central plains of the continent from the strip of coast-lands along the Pacific, they are flying in an area of weather. Storms among the peaks and fog over the San Francisco area set the stage for two of the tragedies, possibly for all three.

## Looking Backward

From The Bulletin File

1886: 60 Years Ago

Van Home says the entire line of the CPR will be opened for traffic early in April.

Norway is being urged to join the coals in the Manitoba Legislature for saying that the construction of the Hudson Bay Railway is not an immediate necessity.

It is reported that Chamberlain and Trevelyan have reached from the Glendora mission as a result of differences over the Irish question.

1896: 50 Years Ago

A party consisting of J. H. H. A. Castello, Alphonse Bouché, Fred Rowland and D. Evans arrived from the following result: Old Country, Kin-Clair, A. Match between old countrymen and Canadian, for two sacks of flour, was played last night.

It was a very close fight. The Canadian, Kin-Clair, A. Match between old countrymen and Canadian, for two sacks of flour, was played last night.

## Strike Mill Rate on Monday

## Two Million of City Budget Approved at Council Meeting

Aldermen Wednesday night at a special council meeting approved \$2,005,070 of the \$5,011,451 of the city's general departmental estimates, and decided to deal with the balance of the budget and strike a mill rate at the next regular meeting of council to be held next Monday.

COUNCIL AGREED that the three platoon system for the city fire brigade would come into effect on May 1 instead of July 1 as recommended by city commissioners. The change of date was made following a submission by Thomas Steele, president of the firemen's union, and other executive officers.

A request from Police Chief Reginald Jennings for 35 additional policemen was not entertained, but his request for two more prowler cars, and more motorized equipment has been granted by the commissioners.

During the discussion of the land department estimates it was disclosed that sales of city owned land from Jan. 1 to March 30 totalled \$31,200. City Commissioner John Hodgson said there had been complaints of speculation in property purchased from the department and that steps were being taken to curb this practice.

COMMISSIONER HODGSON, during consideration of the license department estimates, paid tribute to the efficient manner the department was being operated by License Inspector Roy Foster. He said that since Mr. Foster assumed his duties as inspector the revenue of the department had been increased by 30 per cent.

Fire Chief James Macgregor told council that he had more than 400 applications for positions in the department. He said that at present 65 per cent of all firemen were veterans of the First and Second Great Wars, and that when the three platoon system was put into operation the percentage would increase to 80 per cent.

Requesting that the change from

maintenance is expected to cost \$2878.

Salaries account for \$11,813 of this cost, with fuel, light and power costing \$4,700. Alterations and repairs will cost \$4,500, and general maintenance \$3,800.

Expenditures in the children's welfare department approved totalled \$30,000 of which \$5,018 is for salaries, \$25,000 for the care of children, and \$1,980 for transportation costs.

TENTATIVE APPROVAL was given to expenditures of \$4,000 in the city clerk's office, and the civic employment bureau expenditures of \$4,172 also were approved.

Expenditures of \$70,530 were approved in the civic relief department, with salaries taking up \$5,459 of this amount. Provisions are expected to cost \$20,000, and rentals \$20,000 during the year. Light, water and fuel will cost \$2,500, and clothing \$2,000. Revenue anticipated in the department is set at \$5,000.

In the commissioners' department expenditures totalling \$24,915 were approved. The utility department is charged with \$10,000 of this expenditure.

Expenditures totalling \$35,479 were tentatively approved for the commissioner's department of which \$14,486 is for salaries. Revenue anticipated in this department is set at \$15,000.

IN THE ENGINEER'S department expenditures totalling \$70,850 were approved with revenue for this department set at \$184,000. Of the expenditures total \$60,700 is for administration expenses, \$15,000 for public works, \$20,200 for sewers and drainage maintenance, \$249,000 for street cleaning and scavenging, and \$149,950 for care, improvement and development of parks and cemeteries.

Chief items of revenue include \$40,000 engineering fees on construction, \$10,000 a averaging charges, \$14,500 from the municipal golf links, \$18,000 from the three swimming pools, \$27,000 from the airport and administration building, and \$11,000 for sewerages.

In the fire department tentative approval was given to expenditures totalling \$32,520 of which \$20,231 is for salaries, \$6,215 for fuel, light, water and telephones, \$2,500 for operation of motor apparatus, \$9,443

for uniforms, clothing, and stationery. Revenue of \$2,500 is expected in this department.

EXPENDITURES approved for the board of public health amounted to \$22,627, with anticipated revenue placed at \$2,100. Salaries in this department show an increase of approximately \$4,400 accounted for by the appointment of an additional sanitary inspector, and staff pay increases.

In the land department estimates the expenditures were approved at \$23,198, of which \$20,574 were for salaries. Revenue anticipated is \$119,025.

The legal department expenses were approved at \$14,256, with salaries accounting for \$12,623 of this total. Expenditures approved for the license department amounted to \$17,048, of which \$13,735 came under the heading of salaries. Expenditure in the market de-

## Vote Registration Urged For Cities Urged

Registration of voters for provincial elections in Alberta's four city constituencies, Edmonton, Calgary, Lethbridge and Medicine Hat is urged in a report tabled in the Legislature Wednesday afternoon on behalf of a committee selected at the last session of the provincial house to hear representations and make a report at this session on proposed amendments to the Alberta Election Act.

IF THIS PRINCIPLE is adopted it will mean that voters in the four city constituencies mentioned will be required to register with a registrar appointed for that purpose for each polling division or for two contiguous polling divisions.

Registration will be carried on for a week, from Monday to Saturday of the week preceding nomination day. The committee points out that in the state of New York with a much greater population only three days are allowed for a similar registration.

The committee feels that the system of enumeration which has been the practice in both rural and urban constituencies should be maintained in the country.

PROVISION OF ADVANCE polls in rural constituencies is also requested by the committee, which feels that one such poll for each constituency should be sufficient, so that people in the country who will not be able to vote on election

day could be given that privilege.

Other recommendations include that voting with an X should be eliminated from the Alberta electoral system completely; that voting day be fixed for a Tuesday 32 days after nomination day; that provision be made for a voter to obtain a certificate to vote at a poll other than his own in a rural constituency; that if a candidate withdraws within 48 hours after nomination close, there would be no penalty, but if he waits longer, and that a deposit be not returned until after the candidate or his agent has filed his expense account with the returning officer.

THE COMMITTEE reports that it had investigated the possibilities of the voting machine, such as is used in parts of the United States, but had decided that these machines were not suited for single transferable vote nor for proportional representation.

It was also felt that the extension of proportional representation to rural areas was not practicable and to make it possible amendments

would have to be made to the Legislative Assembly Act.

A draft bill putting the suggested amendments into legal terms is attached to the committee's report, but the committee suggests that it be permitted to continue its explorations into the field of electoral reform in the province for another year.

The committee consists of Hon. Lucien Maynard, M.C., attorney general, J. Percy Page (S.C.-Edmonton) and K. D. Jorgensen (S.C.-Edmonton).

## Danish Consulate Seeks S. A. Clausen

The Royal Danish Consulate General, through C. E. B. Gundersen, vice-consul, is seeking Svend Aage Clausen, born in Harsens, Denmark, in 1908, coming to Canada in 1926. He is known to have been in Edmonton in December, 1939. His aunt in Denmark has died, leaving an estate in which he is one of the heirs. Any information regarding his whereabouts should be sent to the Danish vice-consulate, 9720 10th street, Edmonton.

He has been cultivated in China for more than 2,000 years.

Ride like a King in a Monarch

IT'S CANADA'S NEWEST CAR — here Saturday!

**Monarch**

BUILT FOR CANADIANS BY FORD OF CANADA

NOW you can meet the Monarch—the car built expressly for Canadians by Ford of Canada. It's a handsome car with the graceful good looks that will make a special hit with the Canadian motorists. It's a big car with a long life 8-cylinder engine that ticks off a smooth 97 horsepower. You'll like Monarch even more when you discover all the hidden values Ford engineers have built into this fine new car. It has advanced-type springing—and new shock absorbers and stabilizers which give you a gentle ride at any speed on any road. There is new soundproofing with rubber insulation at more than 200 points to give you studio quietness as you relax in Monarch's roomy interior.

The new, extra large brakes have self-cleaning shoes to bring you to a smooth, quick stop with just a touch of a toe on the pedal. You use less pedal pressure, less driving effort all along the way as you swing through Monarch's wide speed range from an effortless crawl to a ground-eating pace. And there are delightful "little" things like the automatic light which pops on when you open the spacious luggage compartment; the leather pads which protect points of wear on Monarch's rich two-tone upholstery.

Soon Monarch cars will be seen on highways from coast to coast. We suggest you meet Monarch now—as this distinguished new line of automobiles makes its first public appearance.

118-inch wheelbase

## Manpower Also Short

# Material Shortage May Delay Canadian Expansion Program

By D'ARCY O'DONNELL

OTTAWA, March 21.—(CP)—Reconstruction Minister Howe, brushing aside pessimism as to future employment possibilities in Canada, told the Commons yesterday that he feared industrial expansion was coming too rapidly for the amount of materials and manpower available.

IT SEEMS TO BE that the expansion is coming too rapidly and that we shall have an insupportable shortage of materials as well as shortages of manpower when the program now under way comes into full production," said Mr. Howe.

Reviewing Canada's reconstruction program during continued debate on the speech from the throne, Mr. Howe made these points:

1. A survey at March 1 showed that slightly more than half of war factories now have completed their reconstruction; about 30 per cent of the remainder expect to complete the work in six months and about 75 per cent by the end of the year.

2. About \$720,000,000 worth of industrial expansion has been filed with the reconstruction department to be completed in the years 1945 and 1946.

3. Approximately 1,000,000 people have relinquished their wartime occupations since V-J day, Aug. 15, and since that time unemployment has increased from 75,000 to 285,000.

4. A Dominion bureau of statistics survey showed that 43,000 housing units were completed in 1945.

5. Renegotiation of war contracts had caused the recovery of some \$265,000,000.

6. Sales of surplus war materials by War Assets Corporation totalled about \$100,000,000.

7. He called on John Bracken, Progressive Conservative leader, to say definitely what controls he believed should be lifted.

MR. HOWE WAS ONE of five speakers to participate in the day's house speech debate. The other speakers were J. W. Burton (CPC-Humboldt); Gordon Graydon (CPC-Laval); Ernest Lacombe (Ind-Laval-Two Mountains); and Elie Bertrand (Lib-Montreal).

Mr. Graydon, one of the Canadian delegates to the three united nations organization conference within the past 10 months, dealt with foreign affairs and the United Nations. Mr. Graydon said that the Social Credit party be given representation on future delegations to international conferences. He said that the Social Credit party be given representation on future delegations to international conferences.

Mr. Burton called on the government to introduce a housing legislation, such as stable floor prices, to encourage all-out war production during the next few years.

MR. LACOMBE CRITICIZED missing of the \$12,000,000 Canadian loan to Britain and said the money could better be spent in

## Vice-President Driver Acquitted By Supreme Court

James T. Bailey, Springfield district truck driver, was found not guilty in Supreme court Wednesday by Mr. Justice Hugh John Macdonald on manslaughter and dangerous driving charges.

THE CHARGES AGAINST the accused arose out of a motor car and truck collision on the Calgary highway near Edmonton on Nov. 25 last in which George Taylor, Edmonton insurance inspector, received fatal injuries.

Dismissing the charge against the accused, Mr. Justice Macdonald said the automobile was parked on a dark night on the narrow highway to change a tire. The driver was making the change.

The deceased was standing between one rear lamp of the parked car and overhanging traffic, and another passenger in the car was standing between the second rear lamp and the rear wheel.

THE PARKED CAR was difficult to see, and the difficulty was increased by the fact that the rear lights on the car were obscured.

While the accident was unfortunate and deeply regrettable, there was no negligence on the part of the accused in failing to see the dangerous driving charges, Mr. Justice Macdonald stated.

Manley C. Edwards appeared for the accused, and Guy Patterson for the prosecution.

While the accident was unfortunate and deeply regrettable, there was no negligence on the part of the accused in failing to see the dangerous driving charges, Mr. Justice Macdonald stated.

Manley C. Edwards appeared for the accused, and Guy Patterson for the prosecution.

## Jap Deportations Hit Civil Rights

REGINA, March 21.—(CP)—Attorney-General J. W. Corman said in the Legislature yesterday that civil liberties and rights of Canadian citizenship were at stake in the recent case on deportation of Japanese-Canadians and that "whenever racial discrimination shows its ugly head this government will strike."

In an hour-long budget debate address, the attorney-general said committees were being organized throughout Canada to support an appeal to the prime minister, the Supreme Court finding the Dominion law power to deport Japanese-Canadians. Saskatchewan was giving his support.

He was proud he was the only party in Canada which had courage to "fight for what it thinks is right, let the political chips fall where they may."

Birds cannot see blue or violet as we do, but they see red better than do human beings.
